

Notice: Renewal of the WSSJ membership

Since the first publication in 2001 the WSSJ made a lot of efforts to publish “Weed Biology and Management (WBM)” constantly for ten years. For the further development of the journal and promotion of the online access the membership system was renewed as described in the appendix sheet.

It enforced January 2012 (from WBM Vol.12 No.1).

The renewed points;

1. Online journal is available for every WBM member.
2. Membership fee of individual WBM members is JPY 5,000 (Not changed).
3. Online WBM member is newly established. The membership fee of the online WBM member is discounted JPY 3,000, but printed issue of the journal is not distributed.
4. Individual WBM member for developing countries is abolished.
5. The WBM support region/country membership is continued as a special discount option. The membership fee is raised to JPY 2,000 from JPY 1,500, and online membership fee in the group is JPY 1,000/person. Region/Country treasurers (group representatives) decide the group members and send the member list to the secretariat of the WSSJ until the end of December of previous year. The treasures have to distribute the WBM printed issues in the group, collect membership fee and remit it to the WSSJ account every year.
